#### NOTICE TO ALL SUCCESSFUL BIDDERS:

We use soft, PVC (Polyvinyl chloride), flips to ship auction lots in. We do not recommend these flips for long-term storage as PVC does damage coins over prolonged exposure. We recommend placing your coins in a safe type of flip (Mylar) for long-term storage purposes.

#### **AUCTION TERMS**

This is a mail bid auction conducted by Classical Numismatic Group, Inc. (CNG). Bidding in the auction constitutes acceptance of the following terms:

- 1. The property listed in this catalogue is offered for sale by CNG for itself and as agent for various owners and other consignors. We reserve the right to reject any bid, to determine the opening price, to set bidding increments, to vary the order of the auction, to reopen bidding in the case of a dispute, to withdraw any lot, to bid on behalf of CNG, to bid on behalf of the consignor, and to permit the consignor to bid on his own lots.
- 2. All lots are subject to a 10 % Buyer's fee which will be added to the hammer price.
- All coins are guaranteed genuine. Attribution, date, condition and other descriptions are the opinion of the cataloguer, and no warranty is expressed or implied. Please note that an auction sale is not an approval sale. Lots examined prior to the sale and lots purchased by floor bidders (including bidders executing commission bids on behalf of other parties) may not be returned for any reason except lack of authenticity. All claims of misdescription and all claims of return, except claims regarding authenticity, must be made within 5 days of receipt of material. Any claim of lack of authenticity must be made in writing by the original purchaser immediately after discovery that an item is not authentic, and upon making such a claim the original purchaser must immediately return the lot to CNG in the same condition as at the time of the auction. Estimates are intended as a guide only and not as a statement of opinion of value.
- 4. Terms are for cash, with invoices being due and payable immediately upon receipt. Interest and collection charges of 2.0% per month, from the date of the auction, shall be payable on invoices not settled within 30 days of the sale date. Payment by check must be made in either US dollars (\$) drawn on a US bank or British sterling (£) drawn on a British bank. All successful bidders outside North America and the United Kingdom will be invoiced an additional \$15 fee for bank charges, but buyers may deduct this fee if payment is made as required above. Payment may be made by Visa, Mastercard or American Express; however, a 3.5% surcharge is made for payment by credit card.
- 5. Bidders not known to us must provide us with satisfactory credit references or pay a deposit as determined at CNG's discretion before bidding. Minors are not permitted to bid without written consent of a parent guaranteeing payment. CNG may require payment in full from any bidder prior to delivery of lots. Title does not pass until lots are paid in full. Upon receipt of lots, the buyer assumes full responsibility for loss or damage.
- 6. Estimates are in U.S. dollars (\$US) and bids must be in even dollar (\$) amounts. CNG will execute mail bids on behalf of mail bidders. Subject to reserves and opening prices, mail bids will be executed at one bidding increment (approximately 10%) over the next highest bid. Please note that bids below estimate are rarely reduced, but bids above estimate stand a good chance of being reduced. In the case of identical bids, the earliest bid wins. A mail bid has priority over an identical floor bid. Bid by lot number. No lots will be broken. Bidders are responsible for errors in bidding. Check your bid sheet carefully.
- 7. A word on **Reserves**. CNG reserves the right to place a reserve on any lot. However, no reserve will be higher than the estimate, and ordinarily lots are reserved at 60% of estimate.

- 8. Bidders personally guarantee payment for their successful bids, including bidders executing commission bids from other parties and bidders representing corporations or other entities. Buyers accepting commission bids from other parties do so at their own risk and remain responsible to CNG for full settlement under these Auction Terms.
- 9. In the event a successful bidder fails to make any payment when due, CNG reserves the right to resell the material, and the bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid. CNG also reserves all rights that it would be entitled to under the Pennsylvania Uniform Commercial Code, including the right to offset any sums due from a successful bidder against any future consignment or purchase or monies or goods in possession of CNG.
- 10. Sales tax, postage, handling and insurance are the responsibility of the buyer and are added to all invoices where appropriate. Postage, handling and insurance for book lots will be invoiced separately from coin lots. On any tax not paid by the purchaser which should have been paid, even if not invoiced by CNG, the purchaser agrees to pay the same on demand together with any interest or penalty that may be assessed. It is the responsibility of the buyer to comply with foreign customs and other regulations.
- 11. Prices Realised are published after the sale and are mailed with CNG's next publication.
- 12. Bidders consent to waive any claim for incidental, consequential or exemplary damages arising from this auction. The sole remedy that any participant in the auction shall have for any claim or controversy arising out of the auction shall be a refund, without interest, of all or part of the purchase price paid by the participant.
- 13. All rights granted by CNG or otherwise available to bidders and purchasers, under these Auction Terms or otherwise, are personal and may not be assigned or transferred to any other person or entity, whether by operation of law or otherwise. No third party may rely on any benefit or right conferred by these Auction Terms. Bidders acting as agents must disclose the agency in writing to CNG prior to the auction; otherwise rights are limited to the agent and are not transferable to the undisclosed principal.
- 14. Any dispute regarding this auction shall be governed by the laws of Pennsylvania and shall be adjudicated only by the Lancaster County Court of Common Pleas or the U.S. District Court for the Eastern District of Pennsylvania, and all bidders submit themselves to the personal jurisdiction of these courts for this purpose based on service by registered or certified mail. In any dispute regarding this auction, the prevailing party shall be entitled to recover its reasonable costs and attorney fees.
- 15. In the event of a dispute, the English version of these Auction Terms shall be definitive.

Bid Sheets must be received by March 18, 1998.

GOOD LUCK!

#### **AUKTIONSBEDINGUNGEN**

Dies ist eine Versteigerung von Classical Numismatic Group, Inc. (CNG) bei der nur schriftliche Gebote akzeptiert werden. Sie können daran persönlich teilnehmen oder Ihre Gebote schriftlich einreichen. Durch die Abgabe eines Gebotes erkennen Sie die nachstehenden Versteigerungsbedingungen an:

- 1. Die aufgeführten Lose werden von CNG auf eigene Rechnung, als Vertreter verschiedener Besitzer und Einlieferer versteigert. CNG behält sich das Recht Gebote zurückzuweisen, den Rufpreis zu bestimmen, die Steigerungsstufen festzulegen, die Reihenfolge der Lose zu verändern, bei Unklarheiten das Los neu aufzurufen, Lose von der Versteigerung zurückzuziehen, im Namen von CNG und der Einlieferer zu bieten, sowie den Einlieferer auf seine eigenen Lose bieten zu lassen.
- 2. Auf alle Lose wird ein Aufgeld von 10 % auf den Zuschlagspreis erhoben.
- Die Echtheit aller Münzen wird garantiert. Alle Beschreibungen geben die persönliche Beurteilung des Verfassers wieder, es wird insoweit keine Gewähr geleistet. Bitte beachten Sie, daß eine Auktion Käufe zur Ansicht ausschließt. Lose, die vor dem Verkauf besichtigt wurden, und Lose, die von bei der Versteigerung anwesenden Bietern (einschließlich Bietern, die Gebote im Namen anderer Parteien auf Provisionsbasis abgeben) gekauft wurden, können aus keinem Grund zurückgegeben werden, ausgenommen bei mangelnder Echtheit. Alle Reklamationen, ausgenommen Ansprüche in Bezug auf mangelnde Echtheit, müssen innerhalb von fünf Tagen nach dem Erhalt der Ware vorgebracht werden. Ansprüche auf Grund mangelnder Echtheit müssen von dem ursprünglichen Käufer in schriftlicher Form sofort nach Kenntis, gestellt werden; und bei der Geltendmachung eines solchen Anspruchs muß der ursprüngliche Käufer die Ware sofort in dem gleichen Zustand an CNG zurückgeben, in dem sich die Ware Zeitpunkt der Auktion befand. Schätzwerte sind nur als Richtlinien gedacht und stellen keine verbindlich Erklärung über den Wert dar.
- 4. Die Bezahlung wird sofort nach Erhalt der Rechnung fällig. Auf Rechnungen, die nicht innerhalb von 30 Tagen nach dem Verkaufstag beglichen werden, werden vom Datum der Auktion an Zinsen und Inkassogebühren in Höhe von 2% pro Monat berechnet. Die Zahlung muß mit Scheck erfolgen, entweder mit einem auf US-Dollar (US-\$) ausgestellten Scheck, der auf eine US-Bank gezogen ist, oder mit einem auf Pfund Sterling (£) ausgestellten Scheck, der auf eine britische Bank gezogen ist. Allen erfolgreichen Bietern außerhalb von Nordamerika und Großbritannien wird zusätzlich ein Betrag in Höhe von US-\$15,- für Bankgebühren in Rechnung gestellt; die Käufer können jedoch diese Gebühr von ihrer Zahlung abziehen, wenn sie die Bezahlung auf die oben geforderte Weise vornehmen. Zahlungen können mit Visa, Mastercard oder American Express erfolgen; jedoch wird bei Bezahlung mit Kreditkarte ein Aufschlag in Höhe von 3,5% berechnet.
- 5. Bieter, die CNG nicht bekannt sind, müssen CNG eine zufriedenstellende Kreditreferenz zur Verfügung stellen oder ein Depot hinterlegen, dessen Höhe von CNG festgelegt wird, ehe sie Gebote abgeben können. Minderjährige dürfen ohne die schriftliche Zustimmung eines Elternteils, der die Zahlung garantiert, nicht bieten. CNG kann von jedem Käufer Vorauskasse verlangen. Die versteigerten Lose bleiben bis zur vollständigen Bezahlung aller Forderungen von CNG Eigentum der Verkäufer. Nach Erhalt der Lose übernehmen die Käufer die volle Verantwortung für Verluste oder
- 6. Die Schätzungen sind in US-Dollar (US-\$) und alle Gebote müssen auf gerade Dollarbeträge (US-\$) lauten. CNG führt schriftliche Gebote im Namen der Bieter aus. Vorbehaltlich der Mindestgebote und Rufpreise werden schriftliche Gebote eine Steigerungsstufe (von etwa 10%) über dem nächsthöchsten Gebot während der Versteigerung zugeschlagen. Gebote unterhalb des Schätzwertes werden in der Regel nicht ermäßigt. Gebote über dem Schätzwert werden jedoch ermäßigt sofern dies möglich ist. Bei gleichhohen Geboten wird der Zuschlag dem zuerst abgegebenen Gebot erteilt. Ein schriftliches Gebot hat Vorrang vor einem, das während der Versteigerung abgegeben wird. Das Bieten erfolgt nach Losnummern. Die Lose werden nicht aufgeteilt. Die Bieter sind für Fehler beim Bieten selbst verantwortlich. Überprüfen Sie Ihren Gebotsbogen gründlich.
- 7. Eine Anmerkung zu Mindestgeboten (Limiten). CNG behält sich das Recht vor, für beliebige Lose ein Mindestgebot (Limit) festzulegen. Jedoch ist kein Mindestgebot (Limit) höher als der

Schätzwert, und gewöhnlich werden Lose zu 60% des Schätzwertes ausgerufen, wenn kein anderes Gebot (Limit) vorliegt.

- 8. Die Bieter haften persönlich für die Bezahlung ihrer erfolgreichen Gebote; hierin eingeschlossen sind die Bieter, die Gebote von anderen Parteien auf Provisionsbasis abgeben, und die Bieter, die juristische Personen oder andere Rechtsträger vertreten. Käufer, die für Gebote von anderen Parteien Provisionen erhalten, geben die Gebote auf ihr eigenes Risiko ab, und sie sind CNG gegenüber für die volle Begleichung gemäß diesen Auktionsbedingungen verantwortlich.
- 9. In dem Fall, daß ein erfolgreicher Bieter Zahlungstermine versäumt, behält sich CNG das Recht vor, die Waren erneut zu verkaufen; der Bieter erklärt sich damit einverstanden, alle anfallenden Kosten eines solchen Verkaufs zu zahlen und auch für den Fehlbetrag zwischen dem Wiederverkaufspreis und dem Preis des vormals erfolgreichen Gebotes aufzukommen. CNG behält sich auch alle Rechte vor, die sich für CNG aus dem Handelsgesetzbuch für Pennsylvanien, dem Pennsylvania Uniform Commercial Code, ergeben; hierin eingeschlossen ist das Recht, jedwede nach erfolgtem Zuschlag fällig gewordenen Beträge, gegen beliebige künftige Einlieferungen, Ankäufe, Gelder oder Güter, die sich im Besitz von CNG befinden, aufzurechnen
- 10. Umsatzsteuer, Porto, Transportkosten und Versicherung fallen in den Verantwortungsbereich des Käufers und werden allen Rechnungen, falls zutreffend, hinzugerechnet. Porto, Transportkosten und Versicherung für Bücher werden getrennt von denen für Münzen in Rechnung gestellt. Der Käufer erklärt sich bereit, angefallene und nicht entrichtete Steuern auch dann, wenn sie von CNG nicht in Rechnung gestellt wurden auf Verlangen zusammen mit aufgelaufenen Zinsen, sowie eventuell auferlegte Strafen zu bezahlen. Es fällt in den Verantwortungsbereich des Käufers, die Zollbestimmungen und andere Regeln im Ausland zu erfüllen.
- Die erzielten Preise werden nach dem Verkauf bekanntgegeben und werden zusammen mit der nächsten Veröffentlichung von CNG versandt.
- 12. Die Bieter verzchten, auf alle sich an dieser Auktion ergebenden Anspruche hinsichtlich Schadenersatz für Aufwendungen, Schadenersatz für Folgeschäden oder einer über den verursachten Schaden hinausgehenden Entschädigung. Das einzige Recht, das einem Teilnehmer an der Auktion auf Grund eines auf die Auktion zurückgehenden Anspruches oder einer entsprechenden Streitfrage zusteht, besteht in einer zinslosen Rückvergütung des ganzen oder eines Teils des gezahlten Kaufpreises.
- 13. Alle Rechte, die Bietern oder Käufern von CNG gewährt werden oder ihnen anderweitig zur Verfügung stehen, und zwar gemäß diesen Auktionsbedingungen oder anderweitig, sind persönlicher Art und können nicht an eine andere Person oder einen Rechtsträger abgetreten oder übertragen werden, sei es durch gesetzlichen Rechtsübergang oder anderweitig. Keine dritte Partei kann sich auf Leistungen oder Rechte berufen, die durch diese Auktionsbedingungen gegeben werden. Bieter, die als Vertreter handeln, müssen diese Vertretung CNG vor der Auktion in schriftlicher Form offenlegen; andernfalls sind die Rechte auf den Vertreter beschränkt und sind nicht auf den nicht offengelegten Auftraggeber übertragbar.
- 14. Ein Rechtsstreit hinsichtlich dieser Auktion unterliegt des Gesetzen von Pennsylvanien und kann nur von dem Lancaster County Court of Common Pleas oder dem U.S. District Court for the Eastern District of Pennsylvania gerichtlich entschieden werden; und alle Bieter unterwerfen sich für diesen Zweck auf Grund einer Zustellung durch eingeschriebene Post den Staatshoheitsrechten dieser Gerichte. In einem Rechtsstreit hinsichtlich dieser Auktion ist die obsiegende Partei berechtigt, ihre angemessenen Kosten und Rechtsanwaltskosten erstattet zu bekommen.
- Im Falle einer Streitfrage ist die englische Version dieser Auktionsbedingungen rechtskräftig.

Ihre schriftlichen Gebote müssen bis zum 18. März 1998 bei uns eingehen.

VIEL ERFOLG!

#### CONDITIONS DE VENTE AUX ENCHERES

Ceci est une vente aux enchères par correspondance organisée par Classical Numismatic Group, Inc. (CNG). Faire une offre à l'enchère signifie l'acceptation des conditions suivantes:

- 1. Les objets proposés dans ce catalogue sont mis en vente par CNG agissant pour son propre compte et en tant qu'agent représentant divers autres propriétaires. Nous nous réservons le droit de refuser une offre ou enchère, de décider de la mise à prix, de fixer les paliers de hausse des enchères, de modifier l'ordre dans lequel se déroule la vente aux enchères, de relancer les enchères en cas de désaccord, de retirer un lot quelconque, de faire une offre pour le compte du propriétaire et de permettre de faire des enchères sur ses propres lots.
- 2. Tous les lots sont sujets à une commission de 10 % à la charge de l'acquéreur, laquelle sera ajoutée au prix de vente.
- 3. Toutes les pièces de monnaie sont garanties authentiques. L'attribution, la date, l'état et autres qualificatifs sont l'opinion de l'auteur du catalogue sans que ceci implique de garantie expresse ou implicite. Veuillez noter qu'une vente aux enchères n'est pas une vente conditionnelle. Les lots inspectés avant la vente et les lots achetés par des enchérisseurs dans la salle (y compris des enchérisseurs agissant pour le compte d'autres personnes) ne peuvent en aucun cas être retournés excepté en cas de problème d'authenticité. Toute contestation concesnant la description ainsi que toute intention de retourner une monnaie des pièces, (excepté dans les cas de problemes d'authenticité), doivent être formulées dans les 5 jours qui suivent la réception de l'envoi. Toute contestation ayant trait à l'authenticité doit être faite par écrit par l'acquéreur initial immédiatement et, il a l'obligation dans les plus brefs delais de renvoyer le lot à CNG dans le même état qu'il l'a acquis. Les valeurs estimatives sont données à titre purement indicatif et ne sont pas une définition fixe de la valeur réelle.
- 4. Les conditions de la vente prévoient le paiement comptant, les factures étant échues et payables immédiatement dès leur réception. Des intérêts et frais de collecte s'élevant à 2% par mois à compter de la date de la vente aux enchères seront payables sur les factures qui ne sont pas réglées dans les 30 jours qui suivent la date de la vente. Le paiement par chèque doit se faire soit en dollars US (\$) si le chèque est tiré sur une banque américaine, soit en livres sterling anglaises (£) s'il est tiré sur une banque britannique. Tous les acquéreurs domiciliés ailleurs qu'en Amérique du Nord ou au Royaume-Uni se verront facturer un supplément de 15\$ pour frais bancaires mais ils peuvent déduire si le paiement est effectué de la manière indiquée ci-dessus. Le paiement peut s'effectuer avec les cartes Visa, Mastercard ou American Express; le règlement par carte de crédit donne lieu toutefois à une majoration de 3,50%.
- 5. Les enchérisseurs que nous ne connaissons pas doivent nous fournir des références de solvabilité satisfaisantes ou verser des arrhes selon accord avec CNG avant les enchères. Les mineurs ne sont pas autorisés à faire d'enchères sans l'autorisation écrite de l'un de leurs parents garantissant le paiement. CNG peut exiger le règlement intégral de la part d'un enchérisseur avant la livraison des lots. La propriété des lots ne se trouve transférée qu'une fois que les lots ont été payés intégralement. A la réception des lots, l'acquéreur assume l'entière responsabilité en cas de perte ou d'endommagement de ceux-ci.
- 6. Les valeurs estimatives sont données en dollars (\$US) et les offres/enchères doivent être en montants entiers en dollars (\$). CNG exécutera les offres/enchères soumises par correspondance pour le compte des enchérisseurs. A part dans le cas d'une neserve, les offres par correspondance seront exécutées à approximativement 10% de plus que l'enchère la plus proche. Veuillez noter que les enchères inférieures aux valeurs estimatives sont rarement réduites mais que celles au-dessus de ces valeurs ont de fortes chances d'être réduites. En cas d'offres identiques, la première l'emporte. Une offre par correspondance l'emporte sur une offre identique dans la salle. Faites vos offres en écrivant le numéro du lot. Les lots ne seront pas divisés. Les enchérisseurs assumeront la responsabilité des erreurs sur leur bulletin d'enchère, c'est pourquoi il est recommandé de tout controler avec soin.
- 7. Quelques mots sur les prix minimum. CNG se réserve le droit

- de fixer un prix minimum pour n'importe quel lot. Aucune reserve ne sera toutefois supérieure à la valeur estimative et les lots se voient généralement attribuer un prix minimum correspondant à 60% de la valeur estimative.
- 8. Les enchérisseurs garantissent personnellement le paiement de leurs offres en cas d'attribution du lot, même s'ils agissent pour le compte d'un tiers. Les acquéreurs se chargeant d'offres/enchères à la commission venant d'autres personnes le font à leurs propres risques et restent responsables vis-à-vis de CNG du règlement intégral selon les présentes Conditions de Vente aux Enchères.
- 9. Au cas où un acquéreur omet d'effectuer un paiement lorsque celui-ci est échu, CNG se réserve le droit de revendre le lot et l'acquéreur accepte de payer les frais raisonnables d'une telle vente et aussi de payer la différence entre le prix de la nouvelle vente et celui de l'enchère précédemment acceptée. CNG se réserve aussi tous les droits dont l'elle peut se prévaloir en vertu du Code Commercial Uniforme de Pennsylvanie, notamment le droit de déduire les sommes dues par un acquéreur sur un envoi futur ou sur une acquisition future ou sur des sommes d'argent ou marchandises étant en la possession de CNG.
- 10. La taxe sur les ventes, les frais postaux, la manutention et l'assurance sont la responsabilité de l'acquéreur et sont ajoutés à toutes les facturés le cas échéant. Les frais postaux, de manutention et d'assurance pour des lots de livres seront facturés séparément des lots de pièces de monnaie. Dans le cas de toute taxe n'étant pas payée par l'acquéreur mais qui aurait dû être payée, même si elle n'a pas été facturée par CNG, l'acquéreur s'engage à régler le montant de celle-ci ainsi que les intérêts ou la pénalité étant imposés le cas échéant. Il incombe à l'acquéreur d'assurer l'observation de la réglementation douanière étrangère et autres règlements.
- 11. Les Prix Réalisés sont publiés après la vente et sont envoyés par la poste avec la publication suivante de CNG.
- 12. Les enchérisseurs acceptent de renoncer à toute revendication de dommages et intèrêts en cas de dommage cause par la vente aux enchères CNG. Le seul recours qu'un participant à la vente aux enchères aura à l'issue d'une réclamation ou d'un différend sera un remboursement sans intérêts, de la totalité ou d'une partie du prix d'achat payé par le participant.
- 13. Tous les droits accordés par CNG ou dont les enchérisseurs et acquéreurs peuvent autrement se prévaloir leur sont personnels et ne peuvent pas être cédés ni transférés à une autre personne physique ou morale, que ce soit du fait de l'intervention de la loi ou autrement. Aucune tierce personne ne peut s'appoyer sur un avantage ou droit conféré par les présentes Conditions de Vente aux Enchères. Les enchérisseurs agissant en tant qu'intermédiaires doivent divulguer leur mandat d'agence par écrit à CNG avant la vente aux enchères; autrement les droits seraient exclusifs à l'agent et ne seraient pas cessibles au donneur d'ordre qu'il représente.
- 14. Tout différend concernant la présente vente aux enchères sera régi par les lois de Pennsylvanie et sera tranché par la "Cour des Plaids Communs" (Court of Common Pleas) du Comté de Lancaster (Lancaster County) ou le Tribunal de District Fédéral (U.S. District Court) du District Oriental de Pennsylvanie et tous les enchérisseurs se soumettent à la juridiction personnelle de ces tribunaux, basée à cette fin sur la signification par courrier recommandé ou certifié. Dans tout litige concernant la présente vente aux enchères, la partie gagnante aura le droit de recouvrer ses frais d'avocat et coûts raisonnables.
- 15. En cas de litige, la version en anglais des présentes Conditions de Vente aux Enchères fera foi.

Les commissions doivent nous parvenir avant le 18 Mars 1998.

Va ricordato che una vendita all'asta non è una vendita con riserva di gradimento. I lotti esaminati prima dell'asta e i lotti acquistati dagli offerenti in sala (inclusi gli offerenti che fanno offerte per conto di terzi) non possono essere restituiti indipendentemente dalla ragione salvo nel caso di non autenticità. Tutte le rivendicazioni di descrizione inesatta e tutte le richieste di restituzione devono pervenire entro 5 giorni dal ricevimento del materiale. Le rivendicazioni di non autenticità devono essere inoltrate per inscritto dall'acquirente originale immediatamente dopo la scoperta dell'eventuale non autentità e contemporaneamente l'acquirente deve restituire il lotto a CNG nelle stesse condizioni del momento dell'asta. Le stime s'intendono a puro titolo di orientamento e non sono espressioni di un'opinione di valore.
- 4. Le vendite sono per contanti con saldo delle fatture all'atto del ricevimento. Va ricordato che le offerte al di sotto delle stime hanno raramente successo ma quelle sopra le stime hanno buona probabilità di aver successo. In caso di offerte identiche ha la preferenza quella pervenutaci per prima. Un'offerta per corrispondenza gode di priorità su una identica in sala. Le offerte s'intendono per numero di lotto. Nessun lotto può essere suddiviso. Gli offerenti sono responsabili degli errori nelle offerte. Si prega di controllare attentamente il foglio offerte.
- 7. Per quanto riguarda i prezzi minimi di base, CNG si reserva il diritto di fissare un prezzo minimo per qualsiasi lotto, nessun prezza minimo è superiore alla stima e generalmente è il 60% della stima.

Le spese postali, i costi di amministrazione e l'assicurazione per lotti di libri sono fatturati separatamente dai lotti di monete. Nel caso di un'imposta o tassa dovuta e non corrisposta dall'acquirente, anche se non fatturata da CNG, l'acquirente si impegna a corrisponderla su richiesta unitamente agli eventuali interessi o penalità che possano derivare. E'responsabilità dell'acquirente rispettare le norme doganali o altri regolamenti vigenti all'estero.

Jenkins, "Electrum Coinage at Syracuse," in *Essays to Stanley Robinson*, pl. 15, C (same dies); SNG ANS 702. Superb EF. Finely styled dies. (\$3000)

A short-lived coinage known from six obverse and seven reverse dies with numerous interlinkings, which suggests a specific occasion for its striking. Three alternatives proposed are the assumption of the royal title by Agathokles in 304 BC, the marriage of his daughter to Pyrrhos of Epeiros in 297, or renewed preparations for war against Carthage, the last of which seems the most plausible. The thunderbolt type is an Epirote symbol, and the weight is equivalent to an Attic gold oktadrachm.

## Extremely Rare Hieron II Silver 3 Chalkous

133. **Syracuse. Hieron II.** 274-216 BC. AR 3 Chalkous (0.68 gm). Civic Issue. Head of Athena left, wearing crested Corinthian helmet / XIII; ∴ to left, E below. R.R. Holloway, "Eagle and Fulmen on the Coins of Syracuse", *RBN* 1962, pg. 21 and pl. 1, 12 variety (obverse ethnic below bust); SNG ANS 907 variety. VF, porous. Very Rare. (\$300)

This coin was first attributed to the reign of Hieron by W. Giesecke, Sicilia Numismatica, pp. 126-7, and has been followed by later numismatists of the period, including Franke and Holloway. Giesecke interpreted the reverse type ∴XIII to be the denomination, the X standing for Chalkous and the ∴ — III as two different indications of the numeral. Agreeing with Giesecke, Holloway states that "[t]his interpretation has much to recommend it. It avoids postulating the use of Roman numerals in pre-Roman Syracuse, and it has the inestimable advantage of agreeing with the relative weights of the coins (ca. 0.5 gm for the Herakles head pieces, ca. 0.75 gm for the Athene head coins)." The type is very rare, and the variety with an obverse ethnic below the truncation of Athena's neck in addition to the reverse ethnic is previously unknown, although it is possible that the obverse ethnic is simply illegible on the existing examples.

#### First Issue of the Quaestor Aesillas

This rare coin is the first issue of the Quaestor Aesillas, whose coinage was massive in later years. It names the praetor Caesar, who has been identified with L. Julius Caesar, governor (praetor) of Macedon in the late 90s BC. A man of the same name was praetor of Macedon in 67 BC. Thus the dating of the series is far from certain, however the traditional theory of circa 94-88 BC is supported by Athenian overstrikes. Others favor dates from the mid-80s through the early 60s BC. In any case, this is the inaugural issue and of historical importance as such.

The current attitude regarding collectible coins requires them to be as close to original condition as possible. It is difficult to fathom the 19th century mind that saw no harm in countermarking a coin with the owner's initial! This Mesembria diobol bears a "collector's cachet" indicating its possession by a European (possibly Russian) collector.

#### A Choice Gold Stater of Pantikapaion

244. **Black Sea Area. Pantikapaion.** Circa 340 BC. AV Stater (9.06 gm). Bearded head of Pan left, wearing wreath of ivy leaves / Π-A-N, griffin standing left on stalk of wheat, head facing, holding spear in mouth. SNG BMC Black Sea 867; SNG Copenhagen 20; Gulbenkian 588; SNG Lockett 1095. Near EF. (\$15,000)

Pantikapaion was founded by Greek colonists from Miletos in the late 7th century BC. Situated on the west side of the Cimmerian Bosporos, in what is now the Crimea, it achieved great prosperity through its exploitation of the abundant fisheries of the Straits and the export of wheat from the Crimea. This wealth is attested by its splendid gold coinage commencing in the mid-4th century and by the magnificently furnished rock tombs of its principal citizens in the 4th and 3rd centuries. Later, it was to become a regional capital of the kingdom of Mithradates VI of Pontos (120-63 BC) and later still the seat of the kings of Bosporos (1st cent. BC — 4th cent. AD).

The coinage of Pantikapaion seems to have commenced with silver issues in the latter part of the 5th century, but it is for its beautiful gold staters that the mint is chiefly noted. Gold was obtained in great quantities from the Altai and Ural mountains, much of which found its way to western Asia Minor where it was coined by the Lampsakos mint. The earliest gold staters of Pantikapaion were issued in the mid-4th century and are of the purest Greek style, the dies probably being the work of a Lampsakene artist. They depict a three-quarter facing head of the god Pan (a pun on the name of the city) and on the reverse the griffin which Herodotos describes as being the guardian of the remote sources of gold. This lovely example has a profile image of the god and dates to the second half of the 4th century.

The prytanis was the civil magistrate, chosen annually, responsible for civic administration. His name (eponym) would appear on all official documents for that year, coins included. Although it is possible that Prytanis could be a personal name, it is more likely to refer to the office itself. One hypothesis could be that an official died before the completion of his term of office, and coins were struck anonymously for the duration of the year, presumably because it was too short a time to appoint a replacement.

Ex Virgil Brand Collection (Sotheby's, 9 June 1983), lot 111; Theodor Prowe Collection (Brüder Egger, Vienna, 28 November 1904), lot 784.

The history and distribution of the early electrum coinage of Asia Minor is known only in the broadest outline. While certain types, such as the stag of Ephesos and the seal of Phokaia can be identified with some certainty as distinctive civic badges, the vast majority of attributions can be based only on educated guesswork, aided by reports of site finds such as the great Artemision deposit of 1904-1905. Some order can be put to the confusing series by identifing which weight standard a coin was struck to. The cities of Asia Minor were grouped into informal leagues or trading networks, sharing the same standards. The two most common stater standards are named after the most prominent of these cities, Miletos (Milesian, ca.14.1 grams), and Phokaia (Phokaic, ca.16.2 grams).

Other weight standards have been identified as Croesid (later Persian, ca. 10.8 grams), Aeginetan (ca.12.5 grams), Lampsakene (ca.15.3 grams) and Euboic-Attic (ca.17 grams). While this will serve to categorize a stater easily enough, by the time you get down to 1/24 or 1/48 staters, the difference between standards may only be 0.03 grams, too slight to get a certain reading when wear on the coins and the accuracy of the average scale is taken into account. The standards given for the fractions offered here are our best approximations based on these two factors and may vary from the attributions of the Rosen collection. It will be noted that coins of identical type in the Rosen collection are given to two different systems based on weights.

# Samos Tridrachm Depicting The Infant Herakles

431. **ISLANDS OFF IONIA. Samos.** Circa 394-393 BC. AR Rhodian Tridrachm (11.07 gm). ΣΥΝ, the infant Herakles strangling a serpent in either hand / Facing lion's scalp. Barron pg. 210, 1; BMC Ionia pg. 362, 129; Jameson 1528. Toned VF, irregular flan. Very Rare. (\$2500)

The obverse type of this coin, the infant Herakles and the letters  $\Sigma YN$ , is shared by a number of cities: Rhodes, Knidos, Iasos, Samos, Ephesos, Byzantion, Kyzikos and Lampsakos. In each case the reverse type is the badge of the individual city. An alliance coinage, this issue was only struck over a very short period of time, most likely following the battle of Knidos in 394 BC, as is evidenced by the fact that only one obverse die for the entire Samos issue is known.

Babelon had attributed this series to Euagoras II, king of Salamis on Cyprus, while Price leaves it as an uncertain Persian satrap. One possible source might be the satrap Memnon (336-333 BC), originally the governor of Lydia, and after the defeat of the Persians at the Granicus, the supreme commander of Persian forces in the west. Memnon came to the assistance of Rhoontopates of Caria, but after the fall of Halikarnassos conceived the bold plan of carrying the war to Greece itself, where the Spartans and other Greeks, chafing under Macedonian rule, offered potential allies. Darius provided him with the funds to equip a fleet and mercenary army, but after capturing Chios and part of Lesbos, Memnon died of illness before he could reduce Mytilene, a rear base necessary to support his invasion fleet. The Persian king on these tetradrachms might represent Memnon's lost capital at Sardes (the mint for Persian darics and sigloi in the west) as well as the treasure provided by Darius to support his operations against Alexander.

#### ORIENTAL COINAGE

We are creating a new section to deal with the increasing number of ancient Near Eastern coins we are offering. This section is labelled 'Oriental Coinage'. We will place Parthian, Sasanian, Arabian, Mesopotamian, Baktrian, Indian and their subdivisions here. It will also include Persis, Elymais, Characene, Axum, and the various Hun tribes. However, the major Islamic dynasties such as the Ummayads, Abbasids, etcetera and India after the Gupta empire will remain in the 'World' section. We hope that this will make it easier for collectors of these series to locate the coins of interest to them.

Shapur, son of Ardashir, established the limits of the new Sasanian kingdom, bringing most of the lands between Syria and India under his control. In the east, the ancient kingdoms of Baktria came under Persian domination, and the Kushanshahs became vassals of the "King of kings of Iran and non-Iran". It was in the west, however, that Shapur achieved the victories that insured his unique place in history. Shapur defeated not one, but two Roman emperors, first Philip I in 244 AD and then Valerian I in 260. Philip was forced to withdraw from the field and pay a 500,000 aurei indemnity, but Valerian became the only Roman emperor to be captured in battle by a foreign foe. The unfortunate emperor was forced to act as footstool for Shapur, and after his death his body was stuffed and set out on display at the Persian court.

The identification of the conjoined heads on the obverse of this coin remains uncertain. They have been variously identified as Octavian and Agippa, Octavian and M. Aemilius Lepidus, and Octavian and Caesar. RPC states that "the portraits are completely unlike those of Octavian and.....are probably those of municipal officials." In the case of provincial coinage, it is difficult to use style as a criterion in identification as they were often either the work of inferior engravers or engravers without access to the Imperial imago, but without any epigraphic evidence the exact identity of these individuals will have to remain uncertain.

The Romans revived the coinage of King Philip Philadelphos in the 50s BC under the proconsul Aulus Gabinius. Issues were minted with the monograms of Gabinius, Crassus and Cassius, and then circa 49/48 BC the proconsul's monogram was replaced by one standing for either Antioch or 'Autonomous'. Aulus Gabinius gained fame as one of Pompey the Great's generals, and in his position as governor of Syria he played an important role in the inter-family battles of the Jewish priest-kings, the Hasmoneans. See David Hendin's Guide to Biblical Coins (3rd Edition) pp. 266-268 for more on this fascinating Roman general.

## Unpublished & Unique Aes Grave Septunx?

1115. Circa 217 BC. Æ Aes Grave Septunx? (125.44 gm). Laureate head of Saturn left on raised disk; •S below / Prow of galley right; •S above. Thurlow-Vecchi—; Haeberlin—; Crawford—. VF, dark green and red patina. Unpublished and unique? (\$8,000)

At first glance this appears to be an ordinary semis (Thurlow-Vecchi 52), but the deliberate addition of a dot on both the obverse and reverse suggests otherwise (a dot on one side could be explained away as a die flaw, but a dot on both sides must have been done on purpose). Probably during a period of transition to a lower weight standard, the face value of the existing semis was raised by one uncia, and rather than waiting for new molds to be prepared, existing semis molds had a dot added to them and additional coins (septunxes) were cast at this new weight standard. Although unknown in modern references, the septunx is mentioned in a table of ancient coins in Histoire Ancienne. Vol 3: Histoire Nouvelle de tous les Peuples du Monde (no author, Paris 1779), page 236. Perhaps because of its great rarity, the septunx was unknown to, or unverifiable by modern numismatists. Additional research is warranted on this denomination.

Near VF, green patina under light earthen encrustation, lightly rough surfaces. Unpublished denomination for C. Renius! (\$200)

The Æ coinage of C. Renius is extremely rare. Crawford only lists two denominations, a semis and a quadrans, with only one pair of dies known for the semis and one obverse and two reverse dies for the quadrans. To our knowledge, this is the only known Triens. With such a weak legend, attribution to Crawford 231 as opposed to Crawford 292/3 (the other issue with a goat-like animal) is confirmed by the lack of an obverse legend and the lack of four dots before the prow.

Through the influence of Cato, he obtained control of the Pompeian forces and was defeated by Caesar in 46 BC at Thapsus, where, not wanting to be captured, he committed suicide. Cn. Domitius Calvinus was appointed governor of Spain by Octavian after that province was ceded by Sextus Pompey, son of Pompey the Great. The province was in a state of chaos after years of civil war and the rule by Sextus, who governed as little more than a brigand. The stern Calvinus, formerly magister equites under Caesar, pacified the province, putting down a revolt by the Ceretani, although not before subjecting a legionary detachment to the ancient punishment of decimation (executing one out of ten men) for cowardice in the face of the enemy. The minting of these denarii, probably at Osca itself, marks the restoration of Roman order in Spain and the renewed flow of Spanish silver to the Roman treasury.

The reading PIVS. IMP F given in Crawford rests on Bahrfeldt's statement (NZ 1909, pg. 72), that of the 38 examples he found in European museums and collections, he found 3 showing PIVS. IMP F on the obverse. The Kiev example was probably lost in WWII, but the other two are in the D'Ailly collection in Paris. Richard Schaefer has examined all of the Eppius asses in the D'Ailly collection in the Bibliothèque Nationale, but none show the F clearly. Thus, surprisingly this specimen, otherwise of no distinction, is enough off-center to be the first published example with the complete lower obverse legend. Fortunately it is quite strong and clearly reads PIVS IMPE, similar to the PIVS IMP on the reverse of Crawford 479. Sextus Pompeius was telling the Roman world that he was not just the son of a famous man, but had been acclaimed Imperator himself!

P. Cornelius Lentulus Spinther and M. Servilius were joint legates to Cassius and Brutus, and both issued coins in the names of both generals. Lentulus Spinther was born in 74 BC and assumed the toga virilis in 57 BC, and in the same year was elected to the college of augurs. After the murder of Caesar, he joined the parties of Cassius and Brutus and was probably killed at Philippi. The reverse type of this coin refers to Lentulus' appointment to the college of augurs and is one of the few instances in imperatorial coinage in which a moneyer used a reverse type that was personal to himself.

### Very Rare Cassius Aureus

1788. C. CASSIUS LONGINUS & M. SERVILIUS. Circa 43-42 BC. AV Aureus (8.03 gm). Military mint traveling with Brutus and Cassius in the East. C. CASSI. IMP, laureate head of Libertas right / M SERVILIVS LEG, aplustre with each branch ending in a flower. Crawford 505/1; Sydenham 1311; BMCRR (East) 82; Bahrfeldt 60. Near EF. Very Rare. (\$12,000)

This reverse type commemorates the capture of Rhodes by Cassius, who seized booty amounting to eight thousand talents from the public treasury after he had contemptuously spurned the title of king which the terror-stricken Rhodians had offered him. The reverse design is significant in that the aplustre was a common symbol of naval superiority, while the floreate endings of its branches allude to the rose, the civic emblem of Rhodes.

1789. CASSIUS & JULIUS CAESAR. Circa 42 BC. AR Denarius (4.46 gm). Diademed head of Libertas right / Aeneas walking left, carrying Anchises and palladium. A fascinating mule between an obverse of Cassius (Crawford 500/3) and a reverse of Julius Caesar (Crawford 458/1). Probably not the product of an official mint since Cassius' coins were struck at a traveling mint in the east and Caesars' in Africa. Fine. (\$400)

1790. **LEPIDUS & OCTAVIAN.** 42 BC. AR Denarius (3.77 gm). Bare head of Lepidus right / Bare head of Octavian right. Crawford 495/2c; Sydenham 1323; RSC 2. Near VF, typical soft strike in centers, E shaped banker's mark on obverse. Rare. (\$500)

An interesting characteristic of this coin is its lack of the praenomen Caius, obviously having been removed following the damnatio memoriae, which called for the destruction or defacement of all images of the emperor, decreed by the Roman Senate following the death of Caligula. Occassionally, an example of further defacement of Caligula's coins will be seen, usually a cut or punch mark defacing the portrait (cf. A. Banti and L. Simonetta, Corpus Nummorum Romanorum, Vol. XIII, pg. 14, 109/3). Most common, however, was the simple removal of the initial C (for Caius) in the legend. The paucity of Caligula's coins in relation to coins of other members of the Julio-Claudian gens can be directly traced to the damnatio memoriae, as many of Caligula's coins were destroyed.

Laureate head right, globe at point of bust / Triumphal arch surmounted by statue of emperor in quadriga accompanied by Pax and Victory, flanked by two soldiers (torch bearers?); a nude, helmeted statue of Mars in side niche of arch, otherwise decorated with friezes of battle scenes. RIC I 432; BMC 329; WCN 422. Good VF, brown patina. Finest style portrait coupled with an important architectural type on the reverse. (\$1500)

This monumental triumphal arch was erected by Nero to commemorate Roman military campaigns against the Parthians in Mesopotamia and Armenia. Although not particularly successful in a military sense, with Paetus losing almost his entire army at Randeia in Armenia, the war did end with a peace treaty favorable to Rome that was upheld for nearly fifty years. This coin type is vitally important for architectural historians, for the arch was dismantled after Nero's ignominious end in 68 AD, and is only known through its depiction on the coins. This particular example allows a careful study of the decorative details of the monument.

With the weight reduction of the precious metal coinages under Nero, all of the earlier coinages would eventually be consigned to the melting pot. Under Vespasian, many of the time-honored types were reissued in an effort to associate himself in the popular imagination with the Republic and the prestige attached to the Julio-Claudian line. The importance of this association becomes apparent when considering that Vespasian had left no doubt about his intention of founding a new dynasty. This particular reverse type was originally employed on coins of Augustus, and shows the laurel trees that were planted outside of his home to represent his victory over Antony and Cleopatra at the Battle of Actium in 31 BC. The significance of its use under Vespasian was interestingly explained in an important article by Laffranchi (cf. L. Laffranchi, "Un centenario numismatico nell' antichità," R. It. 1911, pp. 427ff). He suggests that the year 70 AD saw the centennial of the Empire as calculated from Actium, and if we calculate from 27 BC when Augustus became emperor, we arrive at the year this type was minted, 74 AD.

The countermark on this issue indicates the continued use of older coins in circulation and the occasional need to identify them as acceptable mediums of exchange. Subsequently, there was a general recall of worn issues by Trajan in 107 AD.

Perhaps this type as struck under the Flavians was meant to draw a comparison between the two ages.

Under Trajan and Hadrian several series of bronze quadrantes were struck in the name of the imperial mines in Noricum, Dalmatia, Pannonia and Moesia (Dardania). These operations supplied metal for the mint at Rome, and perhaps were the sites of workshops to produce coinage for local circulation or as donatives. Others theorize that these pieces were struck at Rome itself, and served some unidentified function, much as the contemporary "nome" coinage struck at Alexandria in Egypt. Whatever the circumstances, these pieces saw limited use, and, except for one rare type struck by Marcus Aurelius, were not issued at any other period. This particular type is the rarest of all the coinage of the mines, and is listed by Cohen in two sizes, i.e., "P.B." and "P.B.Q."

At the age of fourteen, Varius Avitus Bassianus (Elagabalus) inherited the office of high priest of the sun-god Elagabalus at Emisa in Syria. The cult of his sun god was represented by a sacred stone, and in 219 when he moved from Emisa to Rome, he took the stone, probably a meteorite, with him. During his reign, Elagabalus devoted his efforts to the promotion of his cult god, building a lavish temple to house the stone. The reverse of this coin shows the stone on its annual procession through the streets of Rome.

A number of articles in various medical and numismatic journals have discussed Maximinus' acromegalic conditions (see most recently George M. Burden, M.D., "Roman emperor ruled by his strength, size," The Celator, vol. 9, no. 7, July 1995, pg. 14), his huge size and "lantern jaw" suggestive of the possibility that Maximinus suffered from excessive human growth hormone. His biographer in the Historia Augusta claimed that he was 8 ft. 6 in. tall, so strong that he could wrestle and defeat sixteen of the strongest legionaries and pull a laiden cart unaided, and that his thumb was of such thickness that he could wear his wife's bracelet on it like a ring.

2285. **GALLIENUS**. 253-268 AD. Æ Denarius (1.75 gm). Rome mint. Laureate head right / Sol advancing left, raising right hand and holding whip. Cf. RIC V pt. 1, 354; Cunetio—. Good VF, flan crack. Rare. (\$150)

#### Unusual Antoninianus of Gallienus

2286. GALLIENUS. 253-268 AD. Æ Antoninianus (7.73 gm). Radiate head right / Virtus standing left, holding branch(?) and resting left hand on shield set on ground. RIC V pt. 1,—; Cunetio—; RSC—. VF, unusually thick and heavy flan. (\$250)

The extreme thickness of the flan combined with the fact that this reverse type and legend combination is unpublished for Gallienus would suggest that this coin is not an official product of the Roman government, but rather an ancient counterfeit. The style, however, is comparable to anything the mint produced at this time.

2287. GALLIENUS. 253-268 AD. Brockage Antoninianus (3.10 gm). Incuse of reverse / Fortuna standing left, holding rudder and cornucopiae. Cf. RIC V pt. 1, 572; cf. RSC 265. VF. (\$75)

(\$200

The reverse type with the billowing style lion's skin and blundered lettering is more reminiscent of Bastien's "Atelier II" than the sestertii he attributed to Cologne. However, the obverse style on this sestertius is so far removed from that of the unidentified mint that attribution in this catalogue is tentatively left to Cologne.

2292. **POSTUMUS**. 259-268 AD. Æ Double Sestertius (20.95 gm). Cologne mint. Radiate, draped and cuirassed bust right / Mars standing right, holding spear and resting left hand on shield set on ground. RIC 179; Bastien 54. Nice VF, brown patina. (\$300)

## Very Rare Antoninianus of Vabalathus, as Augustus

2303. **VABALATHUS, as Augustus.** 271-272 AD. Æ Antoninianus (3.43 gm). Radiate and draped bust right / Sol standing left, raising right hand and holding globe; star in left field. Cf. RIC V pt.2, 2; Cohen 2. VF, dark brown patina. Very Rare. (\$1000)

Vabalathus was the son of Zenobia and Odenathus, and on the death of his father in 267 AD, he and Zenobia became joint rulers of Palmyra. Neither Gallienus nor Claudius Gothicus granted him the titles granted to his father, though neither emperor could challenge the power of Palmyra. In 270, upon Aurelian's accession, Vabalathus was granted the same titles as his father, and coins were struck in the joint names of Aurelian and Vabalathus. In 271, Vabalathus assumed the title of Augustus, an act of treason, and Aurelian soon marched against this usurper. Zenobia and Vabalathus were both captured and paraded through the streets of Rome. This very rare coin was struck at Antioch, after Vabalathus had declared himself Augustus and had severed relations with Aurelian

Van Heesch has provided the latest chronology for the anonymous civic bronzes of the 4th century. An active campaign of persecution against local Christians, abetted by Maximinus, reached its height in Nicomedia, Antioch and Alexandria. Churches were closed, property was seized from the Christians and they were expelled from many cities. The three major mint cities struck a series of small bronzes honoring the old Greco-Roman gods, Jupiter, Apollo, Tyche and Sarapis among them. The persecutions subsided the following year, possibly as a result of concerns expressed by Constantine and Licinius, the western emperors.

Ex Bourton-on-the-Water Hoard (1970), nos. 1626-1735. In March 1970, a farmer plowing his field in Gloucestershire located a hoard of 3297 Roman bronze coins mostly from the period 307-318, many of which were in mint condition. The hoard had been deposited under two flat stones and analysis of three coins from the outer layer of the deposit confirm that they had been contained within a woolen sack. Before dispersal the hoard was described by D.W. Burge in "Bourton-on-the-Water (Gloucestershire) Hoard of Constantinian Folles," NumChron 1973, pp. 98-125. The hoard contained another 109 coins of identical type to the one offered here.

#### **Two Important Contorniates**

2403. **CONTORNIATE.** Struck circa 4th-5th Century AD. Æ 35mm (22.53 gm). Bust of Alexander the Great right, wearing lion's skin headdress / EVSTORGIVS IN PRASINO, the charioteer Eustorgias standing facing in spread quadriga, raising right hand and holding palm. Alföldi 7 (three specimens cited); Melville Jones, *A Dictionary of Ancient Roman Coins*, pg. 71 and dust cover (this coin illustrated). Good Fine, brown patina. Very Rare and important. (\$2000)

The most important secular controversy of the late Roman and early Byzantine age involved loyalties to the two racing factions - the 'Blues' (Veneto) and the 'Greens' (Prasino). This rivalry led to shocking bloodshed on many occasions as the patrons of each faction clashed. Most engagements occurred in the major cities, such as Rome, Antioch and Constantinople. Although originating with chariot races, the factions had strong ties to mainstream society, and were active in garnering political favor, securing the best jobs and monopolizing industries. Thus their rivalries led well beyond the Circus Maximus in Rome and the Hippodrome in Constantinople. This contorniate is a great rarity and is of considerable importance for its mention of the Green faction, which is further represented in the design by the victorius charioteer Eustorgius, who is also specifically named in the inscription.

In November of 461, Libius Severus was proclaimed emperor by Ricimer at Ravenna, and other than the fact that he was a native of Lucania, nothing else of this emperor is known. He ruled for four years and was little more than a puppet of Ricimer, as evidenced by some of his nummi such as this one with Ricimer's monogram as the reverse type. Severus died in 465, presumably of natural causes, quite a remarkable achievement during the final 30 years of the Western Roman empire.

Although Maurice's Armenian roots are in dispute, there is no doubt that his military career before becoming emperor reflects the usual path taken by the Armenians in the Byzantine world. Their reknown as soldiers and generals brought them to high positions in the army, and some even to the purple. Armenian troops played a vital role in Maurice's campaigns against the Persians, which resulted in Khusru II taking the Sasanian throne with Byzantine assistance. If Phocas had not murdered Maurice in 602, a prolonged peace settlement might have ensued. As it was, Heraclius faced the greatest Persian threat of all in 618, and the Armenian generals on his staff were instrumental in turning back the invaders, leading to the most decisive victory in the long Roman-Persian conflict. Unfortunately both sides were exhausted by the conflict, and neither could resist the Islamic crusading armies out of Arabia.

Byzantine advances against Islam in Asia Minor allowed the Armenian people to regain their independence, beginning with the coronation of Ashot as king in 885. Unfortunately for the Armenians, Byzantine security concerns resulted in increasing annexations of their territory, leading the nobility to resettle in Cilicia, where the Taurus mountains afforded them some protection. The Byzantines would be permanently expelled from the region after their defeat by the Seljuqs at Mantzikart in 1071. Shortly thereafter Roupen I would re-establish a fully independent Armenian kingdom.

Ex Spink, NumCirc, vol. XCVIII, no. 9 (November 1990), 6749.

By the time Constantine succeeded his brother John VIII on the throne, the Byzantine Empire consisted of a small parcel of land in Morea and the city of Constantinople. When the Ottoman sultan Mehmed II finally decided to eliminate what had become a minor nuisance to the Turks, the final result was inevitable. Constantinople was taken by siege, and the last emperor died fighting at the battlements, rejecting the pleas of his courtiers to flee to safety. His heroic and gruesome death (his body was so mutilated that it was only identifiable by his clothing) led to a popular mythology very similar to that surrounding other medieval heros such as Charlemagne; Constantine had never died and would return at some future time to free Greece from her conquerors. The sparse miserable examples of the final coinage of Constantinople were probably struck in the final months of the city's existence as payment to the handful of soldiers and dedicated foreign mercenaries that held the walls to the end against overwhelming odds.

#### An Offering of Anglo-Gallic Coinage From The Elias Collection

In June of 1990, Spink & Son sold the reference collection of Anglo-Gallic coins belonging to the late E. R. Duncan Elias. B.A. Seaby Ltd., the forerunner of our operations in London, on the behalf of a client, acquired many of the coins from this sale, including several of the most important issues of Bergerac for Henry, Earl of Lancaster. We are please to present 52 lots of Anglo-Gallic for your consideration, 47 of which are from the famed Elias Collection.

Elias, in the introduction he wrote for the catalogue of his collection, summed up his collection of Anglo-Gallic coins by saying: "I found that a collector, sitting in the middle of his own coins, sometimes has an advantage over a professional numismatist working in a public institution, provided his collection is extensive enough to form basis for his studies. Fortunately, I was able to fulfill that condition, thanks to purchases from over 50 dealers, mainly in England and France, but also in Italy, Germany, Belgium, Holland, Switzerland and the United States, from over 60 auctions and, last but not least, from a few other collections in the same field..... What I learned from my coins I put down in my book."

We are pleased to offer our clientele the opportunity to once again acquire some of these elusive pieces from an interesting period in Anglo-French history.

# The Coinage of Bergerac 1347-1361

By August of 1345, England had been warring, with little success, in Gascony. Only Bordeaux, Saint Sever, Mézin, Bayonne and the immediate regions were effectively in English control. In August of 1345, Henry, Earl of Lancaster and cousin to the English king Edward III landed at Bordeaux and started a military campaign that was of great success. It had its climax on the 24th of August when the city of Bergerac (Bragairaic at the time) fell to Henry. The capture of this strategically important city removed the French threat of conquest in Bordeaux. Two years later, Edward III granted to Henry of Lancaster, "in gratitude for his victorious deeds in Aquitaine" the castle, the town and the castellany of Bergerac. With this came the privilege of striking money. The money was to be of as good or better metal quality than that of the King.

Elias, in his work of Anglo-Gallic coins, compiled an excellent listing of the known coins of Bergerac. He stated in 1990, that the total number of known coins is now 80. Thirteen coins are in the British Museum, 3 in the Bibliothèque Nationale and 23 in the Musée du Périgord with 44 specimens traced by Elias in private collections. The coins of this period are very rare and it is a pleasure to offer four pieces from Elias' collection for your consideration.

One of the most fearsome auxiliary units of the Roman army was the corps of slingers. These "gunners" of antiquity, often from Crete, would range along the sidelines of a battle and subject the enemy to a deadly hail of lead bullets. Often the lead bolts used would be marked with a symbol marking the unit the slinger belonged to, or sometimes a short phrase, something as simple as "take that". Of course, the most historically interesting pieces can be related to a specific war or even a known battle. The bolts here offered belonged to units fighting for Pompey the Great during his contest with Caesar, and are marked with his name. These pieces are probably from the site of the battle of Munda in Spain, where the sons of Pompey fought a last ditch effort against the Caesareans in 45 BC.
